Election/Restrictions

Claim 1 is generic to a plurality of disclosed patentably distinct species of coating techniques: (i) spraying (Claims 6, 11, 16); (ii) submersing (Claims 7, 16); (iii) melting (Claims 10, 16); (iv) brushing (Claims 12, 16).

Applicant is required under 35 U.S.C. 121 to elect a **single** disclosed species from (i)-(iv), even though this requirement is traversed.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

A telephone call was made to Mr. Larry Lee Lough on March 21, 2007 to request an oral election to the above restriction requirement, but did not result in an election being made.
